COMMERCIAL LEAGUE ROLLS LAST GAMES

Nyalists Finish at Top After
Holding Position From Start.
League Teams May Bowl in
State Tournament.

Holding down first place from the very first, the Nyalist team of the Commercial league won all honors for the league which closed its schedule of 10 weeks Thursday night. The Nyalist at no time were below the top mark and for the past three weeks have had first place "cinched." The Reporter, tied with the Hi-Ka-fooblers for second place last two out of their series with the latter team and are now tied for third with the Merchants, formerly in fourth place. The Leatherettes, losing two to the Merchants drop into fourth place while the Rexalites finished last. Thursday evenings bowling was especially intense, the Reporter and Hi-Ka-fooblers keenly contesting for single game scores.

Following the finish of the schedules, a meeting of captains and team members was held in the Ellsasser parlors adjoining the alleys, and plans were formulated for the league to enter in the state tournament to be held in this city next month.

Mr. Ellsasser also voiced a plan whereby a large entry list from Mishawaka could be assembled, by having the merchants of the city donate various prizes for team standings in the state events. The scores of the various Mishawaka teams would go on record in the state tournament at scratch, and also in the special five men event for the Mishawaka prizes. These teams from home will enter for their handicaps for the latter prizes.

The following are the final standings of the Commercial league teams:

W.	L.	Pct.	
Nyalist	19	11	.603
Hi-Ka-fooblers	16	14	.533
Reporter	15	15	.500
Merchants	15	15	.500
Leatherettes	14	16	.467
Rexalites	11	19	.367

WANTED—Place on farm by man and wife, both competent. Address News-Times, Box 7, Mishawaka.

FOUR-IN-ONE LADDER CO. WORKING 13-HOUR SHIFT

In keeping with Mishawaka's present era of prosperity the Four-in-one Ladder Co., located in the old Chessman plant on E. Broadway, is running over time and is now six carloads of orders in arrears. The plant at the present time employs over 50 men who are working 13 hours a day. The capacity of the plant, which is now taxed, is almost a carload of ladders a day, which means a production of nearly 600 ladders in the 13 hours. The concern is anticipating even a greater volume of business, new orders as well as renewals being received in every mail.

The company has been operating in the new plant for several months, moving from the old Simplex factory on S. Main st., last spring. At that time the concern had completely outgrown its production capacity and larger quarters were necessary at once. The concern is now rapidly approaching another such condition and it may be necessary to soon add additional buildings. When the plant was reestablished the placing of machinery and working conditions were so arranged to give the best possible efficiency. The Ford system of production is followed out. At the extreme east end the lumber enters in the rough and comes out the finished product after completing a round of the building, at the warehouse just south of the manufacturing building. From this building the ladders are loaded into the cars.

The business of the firm is still in its infancy, and the ladder has been merely introduced in its field. Few shipments have been made west of St. Louis, although the eastern market has been rapidly cultivated.

MUSICAL PROGRAM SATURDAY.
A short musical program will be rendered at the Woman's club room, Methodist church, Saturday afternoon at 3 o'clock, just before the election of officers.
